# Pourquoi relier vos certifications Microsoft à Synapsys?

Relier vos certifications Microsoft au compte de l'entreprise est une démarche essentielle qui bénéficie autant à votre développement professionnel qu'à notre succès collectif.

En associant vos compétences certifiées à notre entreprise, vous participez activement à renforcer notre crédibilité auprès de nos clients. Cela met en valeur le niveau d'expertise de notre équipe, ce qui nous permet de répondre aux exigences du marché et de renforcer notre réputation.

De plus, Microsoft attribue différents niveaux de partenariat, en fonction des certifications cumulées de nos consultants. Atteindre ces niveaux nous donne accès à des ressources précieuses, des licences Microsoft 365, des crédits Azure, et des supports avancés, autant d'avantages qui nous sont utiles indispensables.

Relier vos certifications nous offre également une meilleure visibilité de vos compétences, facilitant la mise en avant de votre profil dans notre écosystème.

# Connectez-vous sur le portail [Microsoft Partner Center](#)

The screenshot displays the Microsoft Partner Center dashboard. At the top, there is a navigation bar with the text "Microsoft Partner Center" on the left, a search bar in the center, and notification, settings, and user profile icons on the right. Below the navigation bar, the page is organized into sections. The "Home" section is followed by a "Workspaces" section containing six tiles: "Benefits" (with a gift icon), "Customers" (with a group of people icon), "Insights" (with a lightbulb icon), "Membership" (with a person and equals sign icon), "Referrals" (with a diamond icon), and "My access" (with a plus sign icon). Below the workspaces is a "Quick starts" section with eight tiles, each featuring a book icon and a title with an external link symbol: "Benefits Overview", "Establishing customer relationships", "Indirect reseller enrollment", "About Insights", "Learn about membership requirements", "Getting around Partner Center", "Grow your business with referrals", and "Get workspace access from your admins".

## Membership | Learn profile linking

Microsoft offers two platforms for learning - Partner University & Microsoft Learn. Both platforms help your organization qualify for programs like Solutions Partner designations, Specializations, and the Azure Expert MSP program.

- **Partner University:** Exclusive to Microsoft partners, providing courses and assessments. Access is granted through Partner Center, and your Partner University profile is automatically linked.
- **Microsoft Learn:** Open to everyone, offering certifications and credentials. After completing a certification, link your Learn profile to your Partner Center account.

[Learn more](#)

### Partner University

**What is it:** Microsoft Partner University is an online learning platform dedicated to Microsoft partners. It offers courses, assessments, and learning paths to help partners meet skilling requirements for Solutions Partner and Specializations. [Learn more](#)

**How to get access:** Click on "Sign up for Partner University access" and log in with your personal email ID. Once you have access, you can explore and complete courses at your own pace. [Learn more](#)

**How will it help:** Your Partner University achievements will automatically update in Partner Center, helping your organization meet program skill requirements.

[Sign up for Partner University access](#)

### Microsoft Learn

**What is it:** Microsoft Learn is an online platform offering self-paced learning paths, certifications and applied skills to help individuals gain skills and earn Microsoft certifications. [Learn more](#)

**How to link Microsoft Learn:** To link your Microsoft Learn profile:

1. Sign up: Visit [Microsoft Learn](#) and sign in with your Microsoft account (MSA). [Learn more](#)
2. Pre-requisite: Complete at least one certification.
3. Link accounts: Click "Link Microsoft Learn profile" to connect it with your Partner Center account.

**How will it help:** After linking your Learn profile, completed certifications will automatically sync to your Partner Center account, helping your organization meet skilling requirements.
